ABOUT MCMC

Malaysian Communications and Multimedia Commission

The Malaysian Communications and Multimedia Commission (MCMC) was established on 1 November 1998 pursuant to the provisions of the Malaysian Communications and Multimedia Commission Act 1998 (CMA).

MCMC is responsible for promoting and regulating the communications and multimedia industry along with enforcing the communications and multimedia laws in Malaysia.

The Commission is also overseeing the new regulatory framework for the converging industries of telecommunications, postal services, broadcasting, and online activities, which is aligned with :

01 **Communications and Multimedia Act 1998 (CMA)**

02 **Postal Services Act and digital certification under the Digital Signature Act 1997**

ABOUT ASEAN

Association of Southeast Asian Nations

The Association of Southeast Asian Nations (ASEAN) is a regional organization established on 8 August 1967 to promote cooperation among countries in Southeast Asia. It was founded by Indonesia, Malaysia, the Philippines, Singapore, and Thailand. Over time, ASEAN expanded into a broader regional bloc to strengthen unity and collaboration among its member states.

ASEAN AT GLANCE

Credit: Worldmappinghub7

ASEAN aims to accelerate economic growth, social progress, and cultural development while ensuring peace and stability in the region. It promotes cooperation in trade, education, security and technology, enabling member countries to address shared challenges and improve regional prosperity.

Source: Adapted from the ASEAN Secretariat, What We Do (https://asean.org/what-we-do).

ASEAN TODAY

Today, **ASEAN** plays a key role in regional and global affairs, representing a diverse population and rapidly growing economies. Through collaboration and consensus-based decision-making, **ASEAN** continues to strengthen integration and contribute towards a peaceful, stable, and prosperous Southeast Asia.

WELCOME TO

ASEAN GEOAI FUSION 2026

Bootcamp and Hackathon for Geospatial Innovation

AGAIF 2026 is a regional initiative led by the **Malaysian Communications and Multimedia Commission (MCMC)** under the **ASEAN Digital Senior Official's Meeting - ASEAN Telecommunications Regulators' Council (ADGSOM–ATRC)** 2026 work cycle. The programme aims to strengthen practical Geospatial Artificial Intelligence (GeoAI) capabilities across ASEAN through virtual bootcamps and hackathon activities.

REGIONAL COLLABORATION

Establish sustainable networks for ongoing knowledge exchange and identify pilot opportunities for operational deployment.

CAPACITY BUILDING

Develop foundational and advanced GeoAI skills across ASEAN through structured bootcamp modules and hands-on laboratory sessions.

INNOVATION PROTOYPE

Generate practical, demo-ready geospatial AI solutions addressing real-world challenges across urban planning, environment, and disaster management.

PROGRAMME AT GLANCE

THEME	Geospatial Intelligence for a Connected ASEAN.
ORGANIZER	Malaysian Communications and Multimedia Commission (MCMC).
PROGRAMME FORMAT	Hybrid (Virtual Bootcamps, Virtual Hackathon & Physical Hackathon Finale).
PROGRAMME DURATION	July - November 2026
REGIONAL COVERAGE	ASEAN Member States
TARGET PARTICIPANTS	Students, researchers, developers, geospatial practitioners, AI enthusiasts, telecommunications professionals, government agencies, startups and changemakers.
FOCUS AREA	GeoAI, GIS, Earth Observation, Artificial Intelligence, Machine Learning, Telecommunications and Digital Infrastructure.

OUR OBJECTIVES

01
GEOAI COMPETENCY DEVELOPMENT

Educate both fundamental and advanced GeoAI concepts and help participants build practical skills for real-world problems.

02
HANDS-ON LEARNING

Provide hands-on experience through practical exercises and projects.

03
INNOVATION

Inspire innovative thinking and problem-solving using geospatial data.

04
COLLABORATION

Create opportunities for participants to connect and work with peers and industry experts.

05
REAL-WORLD IMPACT

Address the significant challenges faced by the organisation or industry through the application of GeoAI techniques.

THE PURPOSE

"Empowering ASEAN talent to harness Geospatial Artificial Intelligence for smarter connectivity, resilient infrastructure, sustainable development, and a digitally inclusive future"

PROGRAMME THEMES

The programme themes have been carefully designed to reflect the region's key strategic priorities and to harness emerging opportunities within the evolving digital and geospatial ecosystem.

GEOAI FOR ASEAN

01 EFFICIENCY

Improve workflows, operations and service delivery using spatial analytics.

02 INNOVATION

Advance network planning and maintenance through geospatial intelligence.

03 CONNECTIVITY

Improve service coverage and customer experience through location intelligence.

04 SUSTAINABILITY

Support sustainable and resilient infrastructure planning.

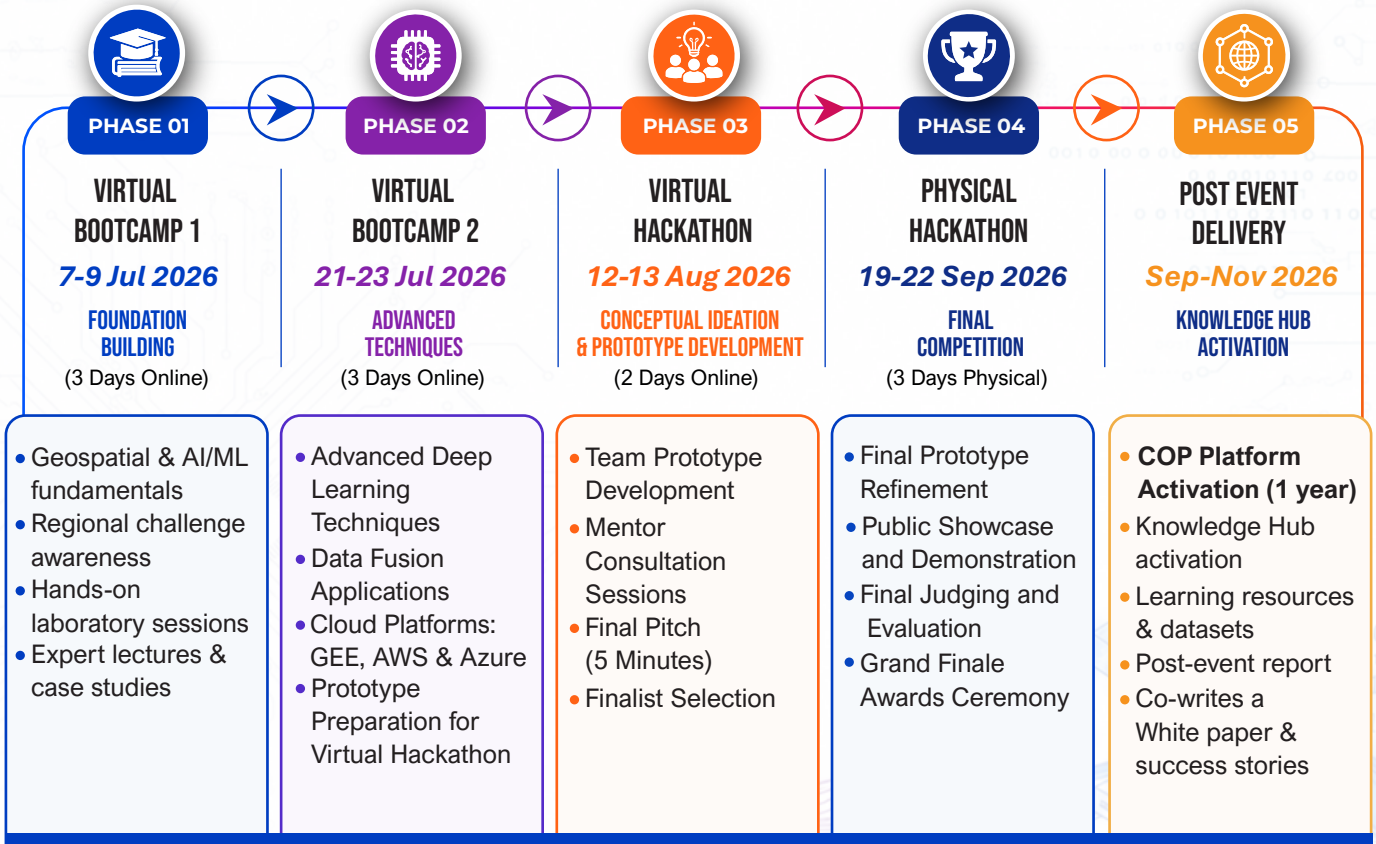
05 SECURITY

Strengthen network resilience, threat mapping and risk visibility.

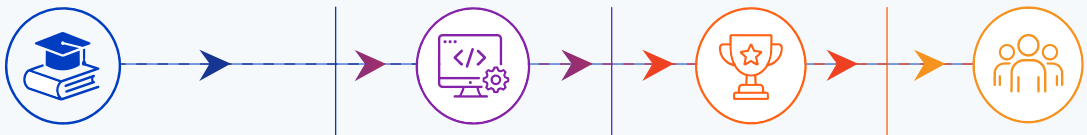
Together, these themes shall encourage participants to think beyond conventional approaches, and to design innovative, data-driven applications of geospatial intelligence that address real-world challenges as well as broader societal needs.

PROGRAMME JOURNEY

ASEAN GeoAI Fusion (AGAIF) 2026 is designed as a progressive learning journey that transforms foundational knowledge into practical, real-world innovation. Through five interconnected phases, participants will build technical competencies, collaborate across ASEAN Member States, and develop GeoAI solutions that address telecommunications and digital infrastructure challenges.



PROGRESSION LOGIC



KNOWLEDGE BASE

Establish participant's knowledge base.

PROTOTYPE DEVELOPMENT

Enables prototype development

REFINEMENT & SHOWCASE

Drives refinement, showcase and regional recognition

COMMUNITY OF PRACTICE

Establish Community of Practice (CoP) and knowledge sharing platform

PARTICIPANT JOURNEY

Participants move from individual learning to team formation, then conceptualization and prototype development. Each team will consist of 2-3 team members (Minimum 2,Maximum 3 members). Highest-performing teams advance to the **physical hackathon.**

KEY OUTCOMES

Upon completing this programme, participants will be equipped with the critical skills and regional networks necessary to achieve the following outcomes.

1. Develop practical competencies in GeoAI and spatial analytics.
2. Gain experience to real-world telecommunications and digital infrastructure challenges.
3. Collaborate with peers, mentors, and experts from across ASEAN.
4. Build innovative prototypes with potential for future implementation and regional impact.
5. Join a growing network of GeoAI practitioners.

Each phase builds upon the previous one, ensuring participants gain the knowledge, practical experience, mentorship, and exposure needed to transform ideas into impactful prototype solutions.

COMPETITION INFORMATION

Turning Ideas into Impact

The AGAIF 2026 Hackathon is where knowledge meets innovation. Participants will work in multidisciplinary teams to design, develop, and present novel, practical GeoAI solutions that address real-world telecommunications and digital infrastructure challenges across ASEAN.

GEOAI PROTOTYPE

A functional prototype, application, dashboard, analytical model, or proof-of-concept demonstrating the proposed solution.

HACKATHON FOCUS

- Geospatial Data
- Artificial Intelligence
- Machine Learning
- Earth Observation
- Cloud Technologies

Teams are encouraged to develop scalable, impactful and sustainable GeoAI solutions for ASEAN's digital transformation.

JUDGING CRITERIA

01	PROBLEM RELEVANCE & REGIONAL IMPACT
02	TECHNICAL IMPLEMENTATION
03	INNOVATION & CREATIVITY
04	DATA UTILISATION & GEOAI INTEGRATION
05	FEASIBILITY & SCALABILITY
06	PROTOTYPE DEMONSTRATION
07	PRESENTATION & COMMUNICATIONS

AWARD & RECOGNITION

Certificates will be issued in stages based on participants' milestones, achievements, and overall participation. All certificates are recognised as **micro-credentials and will be issued in collaboration with well-recognised universities**.

CERTIFICATE OF GEOAI INNOVATOR (CGAI)	***Awarded to members of the Top 3 winning teams during the finale.***
CERTIFICATE OF ASSOCIATE GEOAI INNOVATOR (AGAI)	***Awarded to finalists participating in the Physical Hackathon Finale.***
CERTIFICATE OF ASSOCIATE GEOAI EXPLORER (GAIex)	***Awarded to eligible participants who complete the Virtual Hackathon.***
CERTIFICATE OF PARTICIPATION	***Awarded to participants who successfully completed each program components***

Alongside certificates, in recognition of technical excellence and innovation, winning teams will be honored for their technical excellence and innovation with **exclusive trophies** and substantial **cash rewards.**

GRAND PRIZE

Trophy, Certificates & Cash Prize

★ **USD 5,000**

1ST RUNNER UP

Trophy, Certificates & Cash Prize

★ **USD 3,000**

2ND RUNNER UP

Trophy, Certificates & Cash Prize

★ **USD 2,000**

Consolation Prize X2	Certificate & Cash prize USD 1,000 each
Best Performance X5	USD 500 each

Disclaimer: The organizer reserves its right to replace, substitute, or change the prizes at its sole discretion.

OFFICIAL PROGRAMME PLATFORMS

PARTICIPANT ACCESS

To ensure a smooth and engaging learning experience, all participants will be provided with access to the programme's official digital platforms before the commencement of each programme component.

Please ensure that you have activated your accounts, joined the communication channels, and familiarize yourself with the platforms before the first session.

COLLABHUB

CollabHub
ASEAN GeoAI Platform

COLLABHUB BY MCMC

Official ASEAN GeoAI Participant Portal

CollabHub serves as the official participant portal throughout **AGAIF 2026.** It provides a centralised platform for participants to access programme resources, collaborate with team members, and complete programme modules.

THROUGH COLLABHUB, PARTICIPANTS CAN

- Access programme schedules and announcements
- Download presentation slides and learning materials
- Access laboratory guides, datasets and reference resources
- Submit hackathon deliverables and required documents
- Access session recordings (where applicable)
- Receive updates from organisers and mentors
- Download participation certificates (for eligible participants)
- Connect with the COP, Share/Ask anything related to the GeoAI in the forum

LOGIN INFORMATION

Login credentials and access instructions will be provided via your registered email prior to the commencement of the programme.

ZOOM VIRTUAL MEETING

All virtual bootcamp sessions, keynote presentations, mentoring sessions and the Virtual Hackathon will be conducted via Zoom. Participants are advised to :

- Install the latest version of Zoom before the programme.
- Test your audio, video and internet connection before each session
- Join each session at least 10 minutes before the scheduled start time.
- Rename your display name using the format prescribed by the organiser.

zoom

Scan to download

Meeting links and passwords will be distributed through CollabHub and the official Telegram channel.

OFFICIAL TELEGRAM CHANNEL

Official Bot

Participant self-service channel for common questions, programme information, registration guidance, schedules and basic support

Announcement

One-way official broadcast channel for verified updates from the Secretariat.

Community Hub

Two-way engagement space for participants to interact, ask general questions, share ideas and network

TRAVELLING GUIDE

As the proud host city for **AGAIF 2026** finale, Kuala Lumpur is thrilled to welcome delegates and experts from ASEAN to Malaysia's dynamic capital. To ensure you have an unforgettable stay, we have put together this essential travel guide to help you navigate and experience the best of KL.

WEATHER IN SEPTEMBER

The weather in Kuala Lumpur in September is expected to be both hot and rainy. The average temperatures are predicted to be between 25°C and 33°C, thus drinking water regularly is advisable. Do expect some rainy days in between, so bring along your umbrella in case you get caught in the rain!

MON	TUE	WED	THU	FRI
24°C – 33°C	24°C – 32°C	24°C – 33°C	24°C – 33°C	24°C – 33°C
Partly cloudy with thunderstorms	Partly cloudy with thunderstorms	Partly cloudy with thunderstorms	Partly cloudy with thunderstorms	Partly cloudy with thunderstorms

*Forecast is an estimate and may vary. Please check the latest updates during your stay.

GETTING AROUND

LRT | MRT | MONORAIL | BUS | TAXI | E-HAILING

NEARBY ATTRACTIONS

FOR MORE INFORMATION
visit: https://www.malaysia.travel/

Explore the vibrant highlights and cultural treasures located right in your vicinity. From towering architectural wonders to serene natural parks, these top destinations are waiting to be explored.

KUALA LUMPUR

PETRONAS TWIN TOWERS

These stunning 88-storey buildings are the world's tallest twin skyscrapers. Visit the observation deck for panoramic views.

MERDEKA 118 TOWER

Merdeka 118 is the tallest building in Southeast Asia and the second-tallest in the world.

KL FOREST ECO PARK

This ecological haven was first established as a reserve in 1906, rendering it one of the nation's oldest conservation areas.

PUTRAJAYA

PUTRAJAYA BOTANI PARK

This expansive lakeside public garden is highly regarded for its beautifully curated landscapes, featuring more than 700 species of plants and flowers

TUANKU MIZAN ZAINAL ABIDIN MOSQUE

Commonly referred to as the "Iron Mosque," this grand structure stands out for its ultra-modern, metallic architectural style.

PUTRAJAYA WETLAND PARK

This massive, ecosystem-focused wetlands area serves as a natural water filtration system and a wildlife sanctuary. It provides a peaceful, rugged escape into nature.

SECRETARIAT 2026

The **AGAIF Secretariat** is committed to ensuring a seamless and rewarding experience throughout the programme. Should you require any assistance before, during, or after the event, please do not hesitate to contact us through the official communication channels below.

ORGANISED BY

Under the **ASEAN Digital Senior Officials' Meeting – ASEAN Telecommunications Regulators' Council (ADGSOM–ATRC) 2026** work programme.

ACKNOWLEDGEMENTS

The Malaysian Communications and Multimedia Commission (MCMC) extends its sincere appreciation to all ASEAN Member States, strategic partners, trainers, mentors, judges, speakers, industry collaborators, academic institutions, and organising committee members whose expertise, commitment, and support have contributed to the successful delivery of **ASEAN GeoAI Fusion (AGAIF) 2026.**

Your collaboration reflects our shared vision of strengthening regional capabilities in Geospatial Artificial Intelligence, fostering innovation, and advancing digital connectivity for a more resilient, inclusive, and connected ASEAN.

We also thank every participant for your enthusiasm, creativity, and dedication throughout this programme. Your ideas and innovations will help shape the future of geospatial intelligence and digital transformation across the region.

MCMC
